Participating in the Regulatory Process

The Fish and Game Commission is composed of five members who are appointed by the Governor and confirmed by the State Senate. The Commission sets hunting and sport fishing regulations including seasons, bag limits, methods and areas of take. In addition, the Commission formulates general policies for the Department of Fish and Game and regulates aspects of commercial fishing. Monthly topical meetings are held to hear regulation change proposals. The public may make recommendations in writing before a Commission meeting or present its proposals verbally at the meeting. The Commission's meeting schedule, including specific topics, dates and locations, is posted on their web site www.fgc.ca.gov.

Written comments can be directed to the Fish and Game Commission at 1416 Ninth Street, Room 1320, Sacramento, CA 95814, or by e-mail to fgc@dfg.ca.gov. Comments sent by e-mail must include a full name and mailing address.

LICENSE INFORMATION

Residency

A *resident* is defined as any person who has resided continuously in California for six months or more immediately before the date of application for a license, or persons on active military duty with the armed forces of the United States or an auxiliary branch or Job Corps enrollees.

License Provisions

Anyone 16 years of age and older must have a fishing license to take any kind of fish, mollusk, invertebrate, amphibian or crustacean in California, except for persons angling from a public pier in ocean or bay waters. A license is required to take reptiles, except for rattlesnakes.

Anyone 16 years or older fishing anywhere in Lake Tahoe or Topaz Lake must possess either a California fishing license or a Nevada fishing license. (Nevada also requires a trout stamp.)

Additional stamps and cards are required to fish in certain areas or to target certain species:

New Report Card Requirements

Anglers who are not required to have a sport fishing license, such as anglers who are under 16 years of age and anglers who will be fishing on Free Fishing Days, are required to have report cards to fish for: salmon in Klamath-Trinity Rivers and their tributaries; steelhead; and sturgeon.

A Klamath-Trinity Salmon Report Card is required for taking salmon in the Klamath and Trinity Rivers or their tributaries.

A Steelhead Report Card is required for taking steelhead in inland waters.

A free **Sturgeon Fishing Report Card** is required for any person fishing for sturgeon. This includes anglers who are under 16 years of age, anglers who are fishing from a public pier, and anglers who hold a lifetime fishing license. Anglers who are under 16 years of age may obtain a sturgeon fishing report card without purchasing a sport fishing license. See Section 5.80 for more information.

A Bay Delta Sport Fishing Enhancement Stamp is required to fish in San Francisco

and San Pablo bays and associated tidalwaters, Carquinez Strait, the Delta, and the Sacramento-San Joaquin River system below the most downstream dam on major tributaries (see section 1.18). Anglers fishing under the authority of a one or two-day sport fishing license are exempt from the Bay-Delta Sport Fishing Enhancement Stamp requirement.

An **Ocean Enhancement Stamp** is required for ocean fishing south of Point Arguello. Anglers fishing under the authority of a one or two-day sport fishing license are exempt from the Ocean Enhancement Stamp requirement.

A **Second-Rod Stamp** is required to fish with two rods in inland waters in any sport fishery in which the regulations of the Commission provide for the taking of fish by angling, except those waters in which only artificial lures or barbless hooks may be used.

Anyone fishing from a boat or other floating device on the Colorado River or adjacent waters forming the California-Arizona border must have a special use stamp in addition to either a California or Arizona fishing license. The holder of a California license must have an **Arizona Use Stamp**, and the holder of an Arizona license must have a **California Use Stamp**.

Possession and Display of License

Section 700. (Title 14, California Code of Regulations).

(a) Display of Sport Fishing License: Every person, while engaged in taking any fish, amphibian or reptile, shall display their valid sport fishing license by attaching it to their outer clothing at or above the waistline so that it is plainly visible, except when diving as provided in Section 7145 of the Fish and Game Code. Persons diving from a boat or shore may have their license on the boat or within 500 yards of shore, respectively (see Fish and Game Code Section 7145).

Regulations provide that a person may purchase a hunting or sport fishing license, tags, or stamps for another person, as long as the application contains the licensee's true name and address. Regulations require that prior to using any license or license stamps, the licensee shall complete the application so that it contains the licensee's true name, residence address, date of birth, height, color of eyes and hair, weight and sex.

LICENSE INFORMATION

Information concerning license requirements and fees may be obtained from license agents, or from any Department of Fish and Game office.

A license or permit application shall indicate the correct mailing address of the applicant. The mailing of any notice required by law in connection with such license or permit shall be deemed sufficient if addressed to the last current address on file with the Department.

Fish, mollusks, crustaceans, amphibians and reptiles taken under authority of a sport fishing license may not be bartered or sold.

All fish, mollusks, crustaceans, amphibians and reptiles, and any device or apparatus capable of being used to take them, and all licenses, must be exhibited upon demand of any authorized officer.

REFUND POLICY

Refunds will not be issued for sport fishing licenses, stamps and punch cards. These items are considered in use from the date issued and, therefore, are nonrefundable. For further information, contact the License and Revenue Branch at (916) 928-5805.

FREE AND REDUCED-FEE LICENSES

The Department offers free and reduced-fee fishing licenses to eligible persons. For example, reduced-fee fishing licenses are available to certain low-income seniors at least 65 years of age, and honorably-discharged veterans with a service-connected disability of at least 50 percent. Free fishing licenses are available to eligible persons who are blind; low-income American Indians; developmentally disabled persons; and residents who are so severely physically disabled that they are permanently unable to move from place to place without the use of a wheelchair, walker, forearm crutches, or a comparable mobility-related device. Proof of eligibility for all free and reduced-fee licenses is required. For more information about reduced-fee and free fishing licenses, contact the nearest Department of Fish and Game office.

FISH AND GAME COMMISSION ADOPTS NEW REPORTING REQUIREMENTS FOR SPORT ANGLERS

The Fish and Game Commission (Commission) has adopted new reporting and tagging requirements for recreational anglers. Report cards and tagging requirements would apply for all fishermen when fishing for or taking the following species in the following areas:

(1) Salmon, in the Klamath-Trinity River System only.

(2) Steelhead trout, in all anadromous waters where take is authorized.

(3) White sturgeon, in all areas where take is authorized. Tagging of retained individual sturgeon is also required.

(4) Red abalone, in all areas where take is authorized. Tagging of retained individual abalone is also required.

(5) California spiny lobster, in all areas where take is authorized

Report Cards Are Now Required for Children; Pier Fishermen and Free Fishing Days

Any person fishing for or taking the above five species are required to have the appropriate report card in their possession. Specifically, this report card requirement is for all persons including but not limited to persons under 16 years of age, those fishing from a public pier, those fishing on free fishing days, and lifetime fishing licensee holders.

Changes to Salmon Reporting Requirements

Anglers fishing for salmon in ocean waters will no longer need a Salmon Report Card. Presently, regulations require anglers fishing in ocean waters from Horse Mountain to the Oregon border to purchase and complete a Salmon Report Card documenting any fishing activity. Beginning in 2008, a Salmon Report Card would be required only for anglers fishing in the Klamath-Trinity watershed.

The format was also changed to collect adult and jack Chinook salmon retention and release information, Coho salmon release information, and record salmon fin clip information to

augment the existing data for Klamath-Trinity salmon stocks.

Take Note! Things You Need to Know When Purchasing a Report Card

- All entries made on any report card or tag must be legible and in indelible ink

- The cardholder is responsible for entry of the following information at the time of report card issuance:

- The date that the report card is issued

- The cardholder's name, street address, city, state, zip code, home phone, and date of birth

- If the cardholder has a driver's license or DMV identification number, this information shall also be provided

- If the cardholder is required to have a sport fishing license, the type of report card and the card number must be written on the fishing license, and the license number must be written on the report card.

- Cardholders must return their card by January 31 of the following year to the Department at the address specified on the card. Note that any person who fails to return his or her report card to the Department by the deadline may be restricted from obtaining the same card in a subsequent license year or may be subject to an additional fee for the issuance of the same card in a subsequent license year.

- For abalone and sturgeon report cards, only one report card may be issued per person per license year, to ensure compliance with annual bag limits. While the proposed regulations do provide a mechanism for a replacement card in the event the original is lost, cardholders should be advised they will need both a photocopy of the original report card issued in the cardholder's name, and proof of purchase of the original report card in the form of an itemized receipt, credit card billing statement, invoice, or other written business record expressly documenting that a report card for the particular species was purchased and the corresponding fee was paid.

- Report cards may not be transferred to another person.

- No person may possess any report card other than their own.

CHAPTER 1. GENERAL PROVISIONS AND DEFINITIONS

All laws or regulations hereunder are either reproduced verbatim from the Fish and Game Code or from Title 14 of the California Code of Regulations (CCR), as adopted by the Fish and Game Commission under authority of the Fish and Game Code.

1.04. Anadromous Waters.

Anadromous waters are inland waters that are accessible to fish migrating from the ocean.

1.05. Angling.

To take fish by hook and line with the line held in the hand, or with the line attached to a pole or rod held in the hand or closely attended in such manner that the fish voluntarily takes the bait or lure in its mouth.

1.08. Artificial Fly.

Any fly constructed by the method known as fly tying.

1.11. Artificial Lure.

An artificial lure is a man-made lure or fly designed to attract fish. This definition does not include scented or flavored artificial baits.

1.14. Authorization for Taking Fish.

Fish, amphibians, reptiles, mollusks and crustaceans may be taken only in the amounts, only during the open season and only with the gear authorized and shall not be taken otherwise.

1.17. Bag and Possession Limit.

No more than one daily bag limit of each kind of fish, amphibian, reptile, mollusk or crustacean named in these regulations may be taken or possessed by any one person unless otherwise authorized; regardless of whether they are fresh, frozen, or otherwise preserved. Exceptions: See Sections 7.00, 7.50 (a), 27.60 (e), and 195, Title 14, CCR.

1.18. Bay-Delta Sport Fishing Enhancement Stamp.

A person shall not sport fish in the tidal waters of San Francisco and San Pablo bays east of the Golden Gate Bridge and west of the Carquinez Bridge, (i.e., all tidal waters, sloughs, canals and forebays within the area east of Highway 101, west of Highway 29, west of Interstates 80 and 880, and north of Highway 237, including the

Napa River below the Trancas bridge in Napa, Sonoma Creek below the Highway 121 bridge and the Petaluma River east of Highway 101), the Carquinez Strait, the Sacramento-San Joaquin Delta (i.e., all rivers, sloughs, canals, cuts, forebays, and flooded islands within the area south of Interstate 80, west of Highway 99, north of Interstates 580, and 205, and Highway 120, and east of Interstate 680), the Sacramento River below Keswick Dam, the Feather River below Oroville Dam, the Yuba River below Englebright Dam, the American River below Nimbus Dam, the Cosumnes River west of Highway 99, the Mokelumne River below Camanche Dam, the Calaveras River below New Hogan Dam, the San Joaquin River below Mendota Dam, the Stanislaus River below Goodwin Dam, the Tuolumne River below La Grange Dam, and the Merced River below Crocker-Huffman Dam, unless he or she first obtains, in addition to a valid California sport fishing license and any applicable stamp issued pursuant to Fish and Game Code Section 7149 or 7149.05, a Bay-Delta Sport Fishing Enhancement Stamp and affixes that stamp to his or her valid sport fishing license.

1.19. Barbless Hook.

A fish hook from which the barb or barbs have been removed or completely bent closed, or which is manufactured without barbs.

1.20. Black Bass.

Includes largemouth, small mouth, redeye and spotted bass.

1.23. Bow and Arrow Fishing Tackle.

Such tackle must have the arrow shaft or the point, or both, attached by a line to the bow or to a fishing reel (includes crossbow).

1.24. Bullfrog.

Includes only *Rana catesbeiana*. See Chapter 5 for amphibian regulations.

1.26. Bullhead.

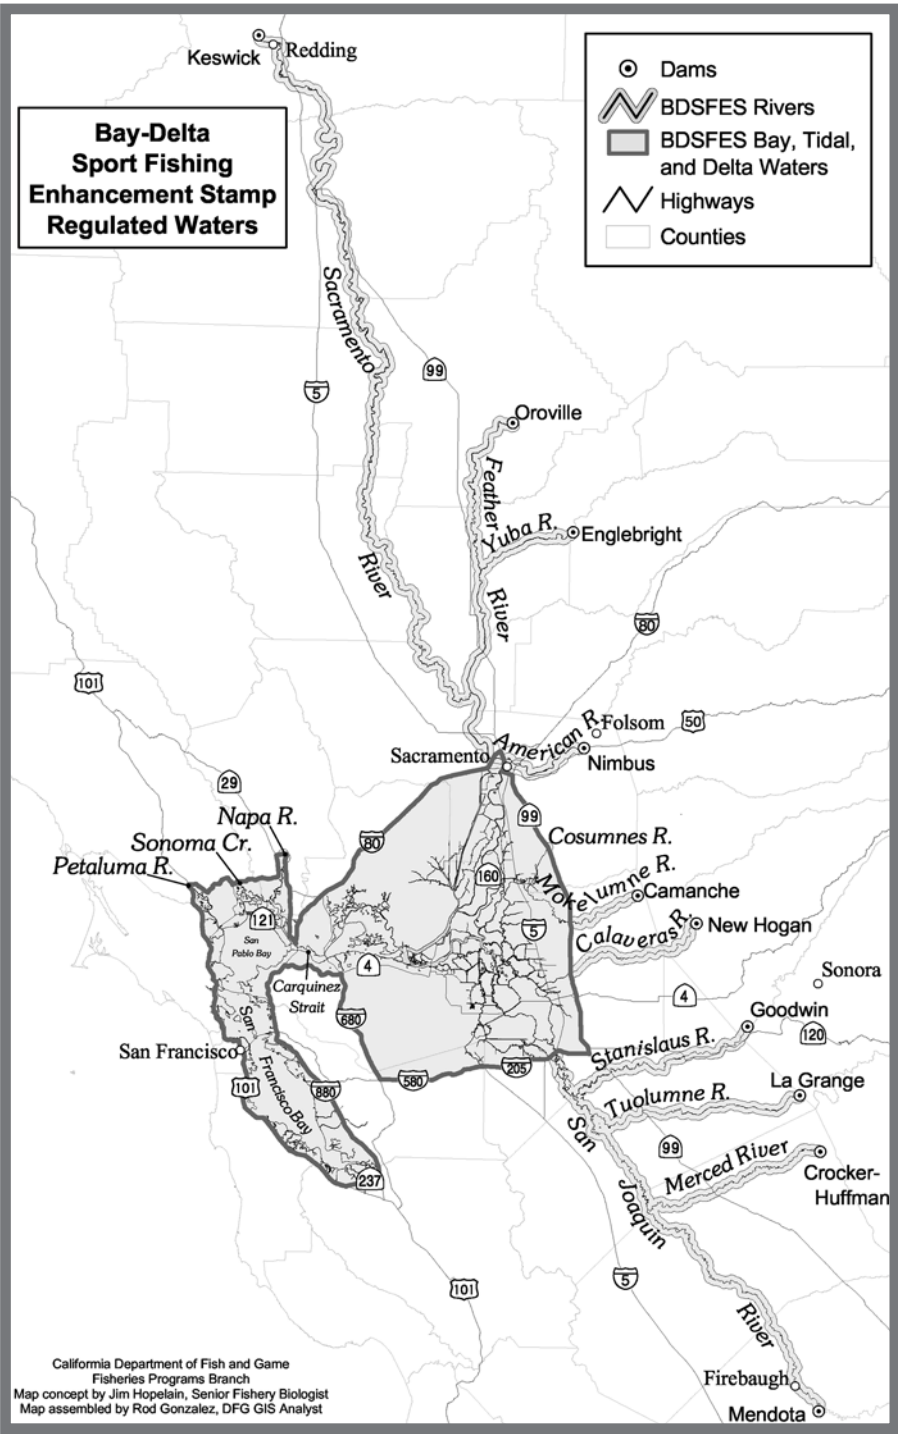

Includes brown, black and yellow bullhead.

1.29. Catfish.

Includes channel, white, blue and flathead catfish.

1.32. Chumming.

Placing any material in the water, other than on a hook while angling, for the purpose of attracting fish to a particular area in order that they may be taken.

1.35. Closed or Closure.

Refers to waters or areas closed to all fishing unless otherwise authorized.

1.38. Closed Season.

That period during which the taking of fish, amphibians, reptiles, mollusks or crustaceans is prohibited.

1.41. Dates.

Dates of seasons and closures are inclusive.

1.42. Dip Net.

Webbing supported by a frame, and hand held, not more than six feet in greatest dimension, excluding handle.

1.44. Dividing Line Between Lake and Stream.

The mouth of the stream at the existing level of the lake surface. Stream regulations apply to parts of streams in the exposed beds of partially empty lakes.

1.53. Inland Waters.

Inland waters are all the fresh, brackish and inland saline waters of the state, including lagoons and tidewaters upstream from the mouths of coastal rivers and streams. Inland waters exclude the waters of San Francisco and San Pablo bays downstream from Carquinez Bridge, the tidal portions of rivers and streams flowing into San Francisco and San Pablo Bays, and the waters of Elkhorn Slough, west of Elkhorn Road between Castroville and Watsonville. Also see Section 27.00.

1.56. Lake.

Includes natural lakes or man-made reservoirs.

1.59. Limit.

Refers to daily bag limit and possession limit per person, or boat limit authorized in Sections 27.60 (e) and 195, Title 14, CCR.

1.60. Lure.

A manufactured article or object equipped with one or more hooks designed to attract or catch fish.

1.61. Non-buoyant lure.

Any lure that sinks in freshwater.

1.62. Minimum and Maximum Size.

No fish, mollusks or crustaceans less than the legal minimum size or greater than the

maximum legal size (total, fork or alternate) may be possessed, except as otherwise provided. Total length is the longest straight-line measurement from the tip of the head to the end of the longest lobe of the tail. Fork length is the straight-line distance from the tip of the head to the center of the tail fin. Tip of the head shall be the most anterior point on the fish with the mouth closed and the fish lying flat on its side. Alternate length is the straight-line distance from the base of the foremost spine of the first dorsal fin to the end of the longest lobe of the tail. Unless otherwise provided, all fish, mollusks or crustaceans less than the legal minimum size or greater than the maximum legal size must be returned immediately to the water from which they were taken.

1.63. Movement of Live Fish.

Except as provided in sections 4.00 through 4.30 and 230, live fin fish may not be transported alive from the water where taken.

1.65. Multiple Hook.

A hook with two or more points.

1.67. Native Reptiles and Amphibians.

Native reptiles and amphibians are those subspecies, and species, including all color phases, of the classes Reptilia and Amphibia indigenous to California. This definition includes all specimens regardless of their origin even if they were produced in captivity.

1.68. Open Season.

That period of time during which the taking of fish, amphibians, reptiles, mollusks and crustaceans is authorized.

1.70. Opening Date and Bag Limit for Boundary Waters.

Waters, exclusive of their tributaries, on the boundary between areas or districts with different opening dates or limits shall open on the earlier date and have the larger limit unless otherwise specified.

1.71. Sacramento-San Joaquin River Delta.

The Sacramento-San Joaquin River Delta includes all rivers, sloughs, canals, cuts, forebays, and flooded islands within the area south of Interstate 80 to its junction with Highway 50, and south of Highway 50 via the Pioneer Bridge to its junction with Highway 99, west of Highway 99, north of Interstate 580, 205, and Highway 120, and east of Interstate 680.

1.72. Stream (Includes Creeks and Rivers).

A stream is a body of water that flows at least periodically or intermittently through a bed or

channel having banks and supports fish or other aquatic life. This includes watercourses having a surface or subsurface flow that supports or has supported riparian vegetation.

1.73. Salmon.

Includes chinook, coho, pink, chum and sockeye salmon.

1.74. Sport Fishing Report Card and Tagging Requirements.

(a) Purpose. These regulations address potential concern for overfishing and a lack of recreational fishing effort and catch information in some or all areas where the fishery operates. Many of these species are of high commercial value, and therefore, additional enforcement mechanisms are needed to improve compliance with existing bag limits and other regulations, and to reduce the potential for poaching.

(b) Species and Location Requirements. Individuals fishing for or taking the following species are subject to report card requirements in the following locations described below:

(1) Salmon, in the Klamath-Trinity River System only. The Klamath-Trinity River System is defined as the anadromous waters of the Klamath River and Trinity River basins. Anadromous waters are defined in Section 1.04.

(2) Steelhead trout, in all anadromous waters where take is authorized.

(3) White sturgeon, in all areas where take is authorized. Tagging of retained individual sturgeon is also required.

(4) Red abalone, in all areas where take is authorized. Tagging of retained individual abalone is also required

(5) California spiny lobster, in all areas where take is authorized.

(c) General Report Card Requirements.

(1) Any person fishing for or taking any of the species identified in this Section shall have in their possession a non-transferable report card issued by the department for the particular species. See special exemption regarding possession of report cards for lobster divers in Section 29.91.

(2) Notwithstanding other statutes and regulations that may exempt sport fishing license requirements, non-transferable report cards are required for any person fishing for or taking the species identified above. All cardholders shall adhere to all reporting and tagging requirements defined in this Section and Sections 5.79, 5.87, 5.88, 27.92, 29.16, and 29.91 regardless of whether a sport fishing license requirement applies. This provision applies to all of the following persons:

(A) Any person who is under 16 years of age

(B) Any person who is fishing from a public pier

(C) Any person who is fishing on free fishing days

(D) Any person who holds a lifetime fishing license

(3) Persons described in subsections 1.74(c)(2) may purchase report cards without purchasing a license.

(4) All entries made on any report card or tag must be legible and in indelible ink.

(5) Entries Required at the Time of Report Card Issuance. At the time of issuance of the report card, the cardholder is responsible for entry of the following information, unless both the report card and the sport fishing license are issued through the Automated License Data System:

(A) The date the report card is issued, the individual's name, street address, city, state, zip code, home phone, and date of birth shall be entered in the appropriate spaces on the report card. If the cardholder has a driver's license, or DMV identification number, this information shall also be entered in the appropriate spaces. If the cardholder has an e-mail address, it may be entered in the space provided.

(B) Acquisition of Sturgeon Fishing Report Cards and Abalone Report Cards - If the cardholder is required to have a sport fishing license, the report card number shall be entered in the designated space provided on the back of the individual's sport fishing license, and the sport fishing license number shall be entered on the report card in the appropriate space.

(C) Acquisition of Klamath-Trinity Salmon Report Cards, Steelhead Report and Restoration Cards and Spiny Lobster Report Cards - If the cardholder is required to have a sport fishing license, both the name of the report card and the number shall be entered in the blank area on the back of the individual's sport fishing license, and the sport fishing license number shall be entered on the report card in the appropriate space.

(D) If the cardholder wishes to purchase another fishing license after their one, two, or ten-day sport fishing license has expired the cardholder need not purchase a second report card for any species, so long as the cardholder still possesses the report card valid for the calendar year. At the time of purchase of the subsequent license, the additional sport fishing license number shall be entered in the appropriate space on the report card. If there is a space provided for the particular card on the sport fishing license, the number shall be entered in the appropriate space at the time of purchase. If there is no space provided for the card, both the name of the report card and the number shall be entered on the back of the individual's sport fishing license.

(6) A report card shall be valid only during the open fishing season for the calendar year shown on the report card.

(7) Cardholders shall return their card by January 31 of the following year to the department at the address specified on the card.

(8) Any person who fails to return his or her report card to the Department by the deadline may be restricted from obtaining the same card in a subsequent license year or may be subject to an additional fee for the issuance of the same card in a subsequent license year.

(9) For abalone and sturgeon report cards, only one report card may be issued per person per license year.

(10) Report cards may not be transferred to another person and no person may possess any report card other than their own.

(d) Replacement Procedures for Lost Abalone or Sturgeon Report Cards. For species for which an individual may purchase only one report card per year (i.e., abalone and sturgeon), if the cardholder loses the card, a replacement card shall be acquired only by following the procedures below:

(1) The individual shall provide all of the following to a Department license office location:

(A) A photocopy of the original report card issued in the cardholder's name, unless the report card was issued through the Automated License Data System.

(B) An affidavit, signed under penalty of perjury, containing the following information:

1. A statement confirming that the originally issued report card cannot be recovered.

2. A statement of the cardholder's best recollection of the prior catch records that were entered on the report card that was lost, including the number of tags utilized.

3. A statement describing the factual circumstances surrounding the loss of the card.

(C) Proof of purchase of the original report card, in the form of an itemized receipt, credit card billing statement, invoice, or other written business record expressly documenting that a report card for the particular species was purchased and the corresponding fee was paid. The cardholder is exempt from this requirement if the report card was issued through the Automated License Data System.

(D) Payment of the Replacement Card Fee specified in Section 701(f), 701(g) or 701(h) Title 14, CCR, established pursuant to subdivision 1053(b) of the Fish and Game Code, and as adjusted pursuant to Sections 713 and 1055 of the Fish and Game Code.

(E) Payment of the Replacement Processing Fee specified in Section 701(i) or 701(j), Title 14, CCR, established pursuant to subdivision 1050(e) of the Fish and Game Code.

(2) Based on the information provided in the written affidavit, the department shall issue only the number of tags that were reported unused on the previously issued report card.

(3) At the time the replacement card is acquired, if the cardholder is required to have a sport fishing license, the number of the replacement card shall be entered in the appropriate space on the sport fishing license and the fishing license number shall be entered in the space provided on the report card.

(4) All regulations applicable to the initial card also apply to additional cards issued pursuant to this subsection.

(e) Replacement Procedures for Salmon, Steelhead, or Lobster Report Cards.

(1) Any cardholder who fills in all available lines on his or her steelhead, salmon or lobster report card shall return the card to the department at the

address specified on the card prior to purchasing a second card.

(2) Any cardholder who loses his or her steelhead, salmon or lobster report card may purchase a second card, but at or before the time of purchase shall provide a written affidavit to the department at the address on the report card documenting the lost catch and effort data required by the card to the best of the cardholder's recollection.

(3) At the time the additional card is acquired, if the cardholder is required to have a sport fishing license, both the name of the report card and the number shall be entered on the back of the individual's sport fishing license, and the fishing license number shall be entered in the space provided on the report card.

(4) All regulations applicable to the initial card also apply to additional cards issued pursuant to this subsection.

(f) Specific Report Card and Tagging Requirements. Data recording and tagging procedures vary between report cards and species. See specific regulations in Sections 5.79, 5.87, 5.88, 27.92, 29.16, and 29.91 that apply in addition to the regulations of this Section.

1.75. Salmon Spawning Areas.

No salmon may be taken or possessed on any salmon spawning area when it is closed to salmon fishing.

1.76. Spearfishing.

The taking of fish by spear or hand by persons who are in the water and may be using underwater goggles, face plates, breathing tubes, SCUBA or other artificial underwater breathing device.

1.77. Sunfish.

Includes bluegill, green sunfish, redear sunfish, pumpkinseed, warmouth, yellow perch and Sacramento perch.

1.80. Take.

Hunt, pursue, catch, capture or kill fish, amphibians, reptiles, mollusks, crustaceans or invertebrates or attempting to do so.

1.84. Titles and Section Numbers.

All titles and headings used in these regulations are a part thereof. All section numbers cited refer to these regulations unless otherwise specified.

1.86. Trout.

Includes all trouts, chars, steelhead, kokanee salmon and grayling.

1.87. Waste of Fish.

It is unlawful to cause or permit any deterioration or waste of any fish taken in the waters of this state.

1.93. Weight

Any object directly or indirectly attached to a fishing line with the purpose of casting or sinking a lure or bait.

CHAPTER 2. STATEWIDE REGULATIONS FOR FISHING AND FROGGING IN INLAND WATERS

*Fish and Game Code, Section 7149.4 was recently amended, expanding the areas where anglers may fish with two rods under the authority of a second rod stamp. Effective January 1, 2008 anglers who possess a Second Rod Stamp and anglers who are under 16 years of age may fish with two rods in inland waters, except those waters in which only artificial lures or barbless hooks may be used. The Fish and Game Commission is in the process of amending the sport fishing regulations to comply with Fish and Game Code, Section 7149.4.

ARTICLE 1. FISHING METHODS AND GEAR RESTRICTIONS

2.00. Fishing Methods--General.

(a) All fish may be taken only by angling with one closely attended rod and line or one hand line with not more than three hooks nor more than three artificial lures (each lure may have three hooks attached) attached thereto. Anglers in possession of a valid two-rod stamp and anglers under 16 years of age may use up to two rods in inland waters which regulations provide for the taking of fish by angling, except those waters in which only artificial lures or barbless hooks may be used. See District Trout, Salmon and Special regulations for exceptions.*

(b) Snagging is prohibited. Snagging is defined as impaling or attempting to impale a fish in any part of its body other than the mouth by use of a hook, hooks, gaff, or other mechanical implement. This definition does not include activities otherwise authorized under these regulations for the lawful use of a gaff, bow and arrow, or spear.

(c) It is unlawful to kill, or retain in possession any fish which has not voluntarily taken the bait or artificial lure in its mouth. Any fish not taken pursuant to these regulations, shall be released immediately back into the water.

2.06. Use of Gaffs.

No person shall possess or use a gaff in inland waters, except that a gaff three feet or less in length may be used to land legal-sized fish only by anglers fishing from a boat in the

Sacramento River main stem below Deschutes Road Bridge.

2.08. Special Fishing Methods and Bag Limits --Barrett and Upper Otay Lakes, San Diego County.

The following fishing methods restrictions and bag limits apply to Barrett Lake and Upper Otay Lake:

(a) Only artificial lures with barbless hooks may be used.

(b) The bag limit for all species is zero.

2.09. Possession of Illegal Gear.

Except as otherwise provided, no person shall use or possess, except in his or her home, any landing gear, any nets, except standard landing-type dip nets not exceeding 36 inches in greatest dimension, excluding handle, gaffs spears or weighted multiple hooks as defined in Chapter 2, Section 2.10 within 100 yards of any river, stream, lake or reservoir. Non-electronic underwater viewing devices may not be used for taking fish except under the provisions of Section 2.30.

2.10. Hook and Weight Restrictions.

(a) Definition of Gap: For the purposes of this section, "gap" means the distance measured from the point of a hook to the shank.

(b) Maximum Gaps and Gear Rigging for Rivers and Streams unless otherwise provided (does not apply to lakes and reservoirs, the

Sacramento-San Joaquin Delta (see Section 1.71 for definition of the Delta), and the Colorado River).

1. No person shall use any single hook with a gap greater than 1 inch or any multiple hook with a gap greater than 3/4 inch.
2. It is unlawful to use any hook which is directly or indirectly attached closer than 18 inches to any weight exceeding 1/2 ounce.
3. It is unlawful to use any multiple hook or more than one single hook on non-buoyant lures exceeding one ounce.
4. It is unlawful to use any weight directly attached below a hook.

(c) Maximum Gaps for the Sacramento-San Joaquin Delta (see Section 1.71 for definition of the Delta).

1. No person shall use any single hook with a gap greater than 1 inch or any multiple hook with a gap greater than 3/4 inch.

2.11. Special Fishing Methods-Lake County.

- (a) In Clear Lake and its tributaries, hitch may be taken by hand or hand-held dip net.
- (b) No barriers or weirs may be constructed to herd fish.
- (c) All hitch are to be utilized and not left as waste.
- (d) All fish taken by hand or net other than hitch must be immediately returned live to the water. No other fish may be possessed along with hitch as part of a mixed bag.

2.12. Special Fishing Methods-Shasta County.

(a) In all waters of the Fall River Valley downstream from Thousand Springs Road, in the Pit River from the confluence with the Fall River downstream to Lake Britton, and in Hat Creek from Hat No. 2 Powerhouse downstream to Lake Britton, western suckers may be taken by hand or hand-thrown spears only by enrolled members of the Pit River Tribe.

(b) Open Season: January 1 through April 15.

(c) No fish other than western suckers may be speared, and all fish other than western suckers captured by hand must be immediately returned live to the water.

(d) No other fish may be possessed along with western suckers as part of a mixed bag.

2.15. Use of Lights.

Lights may be used when fishing at night when and where such fishing is permitted. Lights may be used on or as part of any fishing tackle (this supersedes Section 2005 of the Fish and Game Code).

2.20. Fishing Beneath Ice.

Fish may be taken beneath the ice during the open season for that water.

2.25. Bow and Arrow Fishing.

Bow and arrow fishing is permitted only for the taking of carp, goldfish, western sucker, Sacramento blackfish, hardhead, Sacramento pikeminnow and lamprey, all year, except in:

- (a) Designated salmon spawning areas.
- (b) The Colorado River District where only carp, tilapia, goldfish and mullet may be taken.
- (c) See bullfrogs (section 5.05).
- (d) The East Fork Walker River between Bridgeport Dam and the Nevada State line where carp only may be taken during trout season.

2.30. Spearfishing.

Spearfishing is permitted only in:

- (a) The Colorado River District for carp, tilapia, goldfish and mullet, all year.
- (b) The Valley District for carp, goldfish, western sucker, Sacramento blackfish, hardhead, Sacramento pikeminnow and lamprey, from May 1 through September 15, except that no spearfishing is permitted in:
 - (1) Shasta and Tehama counties (see Section 2.12).
 - (2) Butte Creek (Butte Co.).
 - (3) Feather River below Oroville Dam (Butte Co.).
 - (4) Designated salmon spawning areas.
- (c) The Kern River from the Kern-Tulare county line upstream to the Johnsondale Bridge for

carp, goldfish, western sucker, hardhead and Sacramento pike minnow, from May 1 through September 15.

(d) See bullfrogs (Section 5.05).

2.35. Taking Fish near Dams, Fishways, Screens and Egg-Taking Stations.

No fish may be taken within 250 feet of:

(a) Any fishway or any egg-taking station.

(b) Any dam or any weir or rack which has a fishway or an egg-taking station.

(c) The upstream side of any fish screen.

Fish may be taken upstream or downstream from any dam that does not have a fishway or egg-taking station (this supersedes Section 5502 of the Fish and Game Code).

2.40. Chumming.

Chumming is permitted only in:

(a) The Colorado River District, but only the approved bait fishes for this District may be used as chum (see Section 4.15) except in the Salton Sea where corn may also be used.

(b) Carquinez Strait and Suisun Bay and their tributaries and saltwater tributaries.

(c) Sacramento River and tidewater of tributaries downstream from Interstate 80 bridge.

(d) San Joaquin River and tidewater of tributaries downstream from Interstate 5 bridge.

ARTICLE 2. FISHING HOURS

3.00. Fishing Hours.

(a) Day Defined: One hour before sunrise to one hour after sunset. Remaining hours are night.

(b) All fish may be taken day or night, except as follows:

(1) WATERS WITH RESTRICTED FISHING HOURS FOR ALL SPECIES:

(A) American River between Business 80 and Nimbus Dam (Sacramento Co.): Night fishing prohibited.

(B) Heenan Lake, (Alpine Co.): See Section 7.50(b)(76)(A).

(C) Mono County: Night fishing is prohibited in all Mono County waters except Topaz Lake, where fishing is prohibited from two hours after sunset to one hour before sunrise.

(D) Tahoe Lake (Placer and El Dorado Cos.): Fishing is prohibited from two hours after sunset to one hour before sunrise.

(2) WATERS WHERE NIGHT AND DAY FISHING IS ALLOWED, BUT NO TROUT OR SALMON MAY BE TAKEN AT NIGHT:

(A) North Coast District.

(B) North Central District, except Berryessa Lake (Napa Co.) and Mendocino Lake (Mendocino Co.).

(C) South Central District, except Coyote Lake (Santa Clara Co.).

(D) Valley District, north of Interstate 80, except Camp Far West Lake (Nevada, Placer, and Yuba counties), Collins Lake (Yuba Co.), Oroville Lake (Butte Co.), and Wildwood Lake (Nevada Co.).

(E) Shasta, Siskiyou, Lassen and Tehama counties.

ARTICLE 3. BAIT REGULATIONS FOR INLAND WATERS

4.00. Bait-General.

Legally acquired and possessed invertebrates, mollusks, crustaceans, amphibians (except salamanders), fish eggs and treated and processed foods may be used for bait, except:

(a) No species specified as endangered, threatened, candidate, fully-protected, or otherwise protected under state and federal law may be used as bait.

(b) No salamander may be used as bait. See section 5.05 for other amphibians that may be used as bait.

(c) See Section 5.35 for restrictions on crayfish;

(d) See Section 7.50(b)(74) for restriction on bait collecting in Hat Creek;

(e) No trout may be maintained or possessed in a live condition in any container on or attached to any boat;

(f) Except for restrictions listed under special regulations, dead ocean fish may be used as bait statewide. This section supersedes the provisions of sections 4.10, 4.15, 4.20, 4.25 and 4.30.

4.05. Bait Fish Capture Methods.

(a) Approved bait fish may be taken only by hand, with a dip net, or with traps not over three feet in greatest dimension. Such bait fish may not be purchased, bartered, sold, transferred or traded; or transported alive from the location where taken. Any other species taken shall be returned to the water immediately. Traps need not be closely attended. Dip net use: A dip net must be hand held, and the motion of a dip net shall be caused only by the physical effort of the operator. A dip net may not be moved through the water by any mechanical force or motorized device.

(b) Within the area bounded by Highway 111 on the north and east and Highway 86 on the west and south, approved bait fish may be taken only with dip nets with diagonal mesh size one inch

and greater, or by traps in water greater than four feet in depth. Traps may not exceed three feet in greatest dimension. Approved bait fish may not be taken by hand within this area.

4.10. Bait Fish Use in the Southern District.

Except as provided below, live or dead fin fish shall not be used or possessed for use as bait in the Southern District:

(a) Dead threadfin shad and live or dead longjaw mudsucker may be used in all Southern District waters.

(b) Live threadfin shad may be used only at the location where taken.

(c) Golden shiner and red shiner may be used in San Diego County.

4.15. Bait Fish Use in the Colorado River District.

Except as provided below, live or dead fin fish shall not be used or possessed for use as bait in the Colorado River District:

(a) Live or dead golden shiner, fathead minnow, red shiner, mosquitofish, longjaw mudsucker, threadfin shad, goldfish, sunfish, molly, and dead carp may be used in all Colorado River District waters.

(b) Live carp may be used only at the location where taken.

(c) Tilapia may be used in the Salton Sea, and may be taken for bait only within the area bounded by Highway 111 on the north and east and Highway 86 on the west and south (except as in subsection (d) below).

(d) Tilapia may be taken and used for bait in the Colorado River and its associated backwaters only within the area bounded by Palo Verde Diversion Dam south to the Morelos Dam.

NOTE: See subsection 4.05(b).

4.20. Bait Fish Use in the Valley and South Central Districts.

Except as provided below, live or dead fin fish shall not be used or possessed for use as bait in the Valley or South Central District:

(a) Live or dead golden shiner, fathead minnow, mosquitofish, longjaw mudsucker, and staghorn sculpin, and dead threadfin shad, Mississippi silverside and lamprey may be used in all Valley and South Central District waters except those listed in subsection (f) below.

(b) Red shiner may be used only in the Valley District north of Interstate 580 and Highway 132.

(c) Yellowfin gobies may be used in the Valley District only in those areas described in subsections (d)(1)-(3) below.

(d) In addition, except for trout and salmon, fin fish lawfully taken in the following waters by angling or with bait fish methods approved in

Section 4.05 may be used only in the waters where taken:

(1) Carquinez Strait and Suisun Bay and their tributaries and saltwater tributaries.

(2) Sacramento River and tidewater of tributaries downstream from the Highway 32 bridge near Hamilton City, Feather River downstream from the Oroville Hatchery Fish Barrier Dam, Yuba River downstream from Daguerre Point Dam, and American River downstream from Nimbus Dam.

(3) San Joaquin River and tidewater of tributaries downstream from Interstate 5 bridge.

(e) Live threadfin shad, Mississippi silverside and lamprey may be used only at the location where taken.

(f) Fin fish may not be used in Keller Lake (Glenn Co.), Letts Lake (Colusa Co.), Merced Lake (San Francisco Co.), Upper and Lower Plaskett Meadow Ponds (Glenn Co.), Whale Rock Reservoir (San Luis Obispo Co.).

4.25. Bait Fish Use in the North Central District.

Except as provided below, live or dead fin fish shall not be used or possessed for use as bait in the North Central District:

(a) Golden shiner, fathead minnow, red shiner, mosquitofish, longjaw mudsucker and staghorn sculpin may be used in Napa and Sonoma counties, in Marin County except for Stafford Lake, in Lake County except for the Eel River and its tributaries, and in Lake Mendocino (Mendocino Co.).

(b) Live threadfin shad, Mississippi silverside and lamprey may be used only at the location where taken.

4.30. Bait Fish Use in the Sierra and North Coast Districts.

Except as provided below, live or dead fin fish shall not be used or possessed for use as bait in the Sierra and North Coast Districts.

(a) In Donner, Fallen Leaf and Tahoe lakes Lahontan redbreast, tui chub, Tahoe sucker, Lahontan speckled dace, mountain sucker and Paiute sculpin may be used only in the same lake where taken.

(b) In Shasta Lake only golden shiner, red shiner, fathead minnows, mosquitofish and threadfin shad may be used or possessed for use as bait.

(c) Crayfish shall not be used for bait in the Pit River and all tributaries between Pit 3 Dam (Lake Britton) and the Fall River-Cassel Road Bridge at Fall River Mills, California (includes Hat Creek and Fall River and their tributaries).

ARTICLE 4. SPECIES REGULATIONS

5.00. Black Bass.

It is unlawful to take or possess black bass except as provided below:

(Note: Some waters are closed to all fishing under Section 7.50.)

(a) General Statewide Restrictions:

(1) Lakes/Reservoirs and the Sacramento-San Joaquin Delta: The following waters, except for those listed in subsection (b) Special Regulations (below), are open to fishing all year, with a 12-inch minimum size limit and five-fish daily bag limit: All lakes and reservoirs in the State, and the Sacramento-San Joaquin River Delta, (see Section 1.71 for definition of the Delta).

(2) Rivers/Streams and Private Ponds: Rivers, streams, canals, and lakes or ponds entirely on private lands, which are not listed in subsection (b) Special Regulations (below), are open all year with no size limit and a five-fish daily bag limit.

(b) Special Regulations: Counties and individual waters listed below are those having regulations different from the General Statewide Restrictions in subsection (a) above).

DISTRICTS AND COUNTIES WITH SPECIAL BLACK BASS REGULATIONS			
<i>Area or Body of Water</i>	<i>Open Season</i>	<i>Size (total length)</i>	<i>Bag Limit</i>
(1) Colorado River District: All waters (Bag and size limits conform with Arizona regulations.)	All year.	13-inch minimum.	6
(2) Inyo County: all streams east of Highway 395 from the southern Inyo County line north to the junction of Highway 6 and east of Highway 6 to the Mono County line.	All year.	12-inch minimum.	5
The remaining streams of Inyo County, except those waters listed in sections 7.50(b)(82) and 7.50(b)(134).	Last Saturday in April through Nov. 15.	12-inch minimum.	<u>5</u>

(34) Upper Otay Lake (San Diego County). (Also see Section 2.08)	All year.	No black bass shall be possessed	0

5.05. Amphibians.

(a) Only the following amphibians may be taken under the authority of a sportfishing license, subject to the restrictions in this section. No amphibians may be taken from ecological reserves designated by the commission in Section 630 or from state parks, or national parks or monuments.

- (1) Pacific giant salamander (*Dicamptodon tenebrosus*)
- (2) California giant salamander (*Dicamptodon ensatus*)
- (3) Southern Seep (Torrent) Salamander (*Rhyacotriton variegatus*)
- (4) Rough-skinned newt (*Taricha granulosa*)
- (5) California newt (*Taricha torosa*)
- (6) Red-bellied newt (*Taricha rivularis*)
- (7) Northwestern salamander (*Ambystoma gracile*)
- (8) Long-toed salamander (*Ambystoma macrodactylum*), except Santa Cruz long-toed salamander (*Ambystoma macrodactylum croceum*)
- (9) Black salamander (*Aneides flavipunctatus*)
- (10) Clouded salamander (*Aneides ferreus*)
- (11) Arboreal salamander (*Aneides lugubris*)
- (12) California slender salamander (*Batrachoseps attenuatus*): See Special Closure (f)(1)
- (13) Pacific slender salamander (*Batrachoseps pacificus*): See Special Closure (f)(1)
- (14) Relictual slender salamander (*Batrachoseps relictus*): See Special Closure (f)(1)
- (15) Dunn's salamander (*Plethodon dunnii*)
- (16) Ensatina salamander (*Ensatina eschscholtzii*)
- (17) Western toad (*Bufo boreas*)
- (18) Woodhouse's toad (*Bufo woodhouseii*)
- (19) Red-spotted toad (*Bufo punctatus*)
- (20) Great Plains toad (*Bufo cognatus*)
- (21) Great Basin spadefoot toad (*Scaphiopus spea intermontana*)
- (22) Couch's spadefoot toad (*Scaphiopus spea couchii*)
- (23) California chorus frog (*Hyla (Pseudacris) cadaverina*)
- (24) Pacific chorus frog (*Hyla (Pseudacris) regilla*)
- (25) Northern leopard frog (*Rana pipiens*)
- (26) Southern leopard frog (*Rana yutricularia*)
- (27) Rio Grande leopard frog (*Rana berlandieri*)
- (28) Bullfrog (*Rana catesbeiana*)

(b) Open season: All year. The season closures in Chapter 3 (District Trout and Salmon District General Regulations and Special Regulations) do not apply to fishing for amphibians with methods other than hook and line (see sections 7.00 and 7.50(a)(2)).

(c) Limit: The daily bag and possession limit for each of the amphibian species listed in subsection (a), above, is four except for bullfrogs, which have no daily bag or possession limit.

(d) Hours: Amphibians may be taken at any time of day or night.

(e) Methods of take:

(1) Amphibians may be taken only by hand, hand-held dip net, or hook and line, except bullfrogs may also be taken by lights, spears, gigs, grabs, paddles, bow and arrow, or fishing tackle.

(2) It is unlawful to use any method or means of collecting that involves breaking apart of rocks, granite flakes, logs, or other shelters in or under which amphibians may be found.

(f) Special closures:

(1) No slender salamanders (*Batrachoseps* spp.) may be taken from Inyo and Mono counties and from the Santa Rosa Mountains, Riverside County.

5.10. Candlefish or Eulachon.

(a) Open season: All year, except for closures listed under special regulations.

(b) Limit: Twenty-five pounds.

(c) Methods of take: Candlefish may be taken with dip nets.

5.15. Catfish and Bullheads.

(a) Open season: All year, except for closures listed under special regulations.

(b) Limit: Bullheads, no limit; all other catfish, no limit, except as follows:

(c) Carcasses: In the Colorado River and its backwaters, the carcasses of all catfish and bullheads imported, possessed or transported must have either the head, tail or skin attached so that the species can be identified and numbers can be determined until such fish are being prepared for immediate consumption.

5.20. Clams, Freshwater.

(a) Open season: All year, except for closures listed under special regulations.

(b) Limit: Fifty pounds (in the shell).

(c) Methods of take: Freshwater clams may be taken only by hand, or by spade, shovel, hoe, rake or other appliance operated by hand.

(d) The season closures in Chapter 3 (District Trout and Salmon Special Regulations) do not apply to freshwater clam fishing (see sections 7.00 and 7.50(a)(2)).

5.25. Corvina in the Salton Sea.

(a) Open season: All year.

(b) Bag limit: Two.

(c) Possession Limit: Four.

(d) Minimum size limit: 18 inches total length.

5.26. Gulf Croaker and Sargo in the Salton Sea

(a) Open season: All year.

(b) Daily bag limit: Six each species.

(c) Possession limit: 12 each species.

(d) Size limit: None.

5.30. Crappie.

(a) Open season: All year, except for closures listed under special regulations.

(b) Bag Limit: Twenty-five, except in:

(1) Barrett and Upper Otay Lakes (San Diego Co.) where the bag limit is zero for all species (See Section 2.08), and

(2) Eastman Lake (Madera Co.) where only 25 crappie and sunfish, all species combined, may be taken per day. (See Section 5.82.)

(c) Size Limit: No size limit, except at Hodges and El Capitan Lakes (San Diego County), where the minimum size limit is 10 inches, total length.

5.35. Crayfish.

(a) Open season: All year, except for closures listed in subsection (d) of this Section.

(b) Limit: No limit.

(c) Methods of take: Crayfish may be taken only by hand, hook and line, dip net or with traps not over three feet in greatest dimension. Any other species taken shall be returned to the water immediately. Traps need not be closely attended.

(d) Closures for Protection of Shasta Crayfish: Fall River upstream of Spring Creek Bridge, Lava Creek, Tule River and all connected waters upstream of Little Tule River, Sucker Springs Creek, Crystal Lake, Rising River and Rising River Lake are closed to take and possession of crayfish. (See Section 4.30 for prohibition against crayfish use for bait in sections of the Pit River).

(e) The season closures in Chapter 3 (District Trout and Salmon Special Regulations) do not apply to crayfish fishing with methods other than hook and line (see sections 7.00 and 7.50(a)(2)).

5.37. Grass Carp.

No grass carp may be taken or possessed at any time, except that any grass carp inadvertently taken must be immediately returned unharmed to the water.

5.40. Lamprey.

(a) Open season: All year, except for closures listed under special regulations.

(b) Limit: No limit.

(c) Methods of take: Lamprey may be taken only by hand, hook, spear, bow and arrow fishing tackle, dip net or traps not over three feet in greatest dimension. Any other species taken shall be returned to the water immediately. Traps need not be closely attended.

(d) The season closures in Chapter 3 (District Trout and Salmon Special Regulations) do not apply to lamprey fishing with methods other than hook and line (see sections 7.00 and 7.50(a)(2)).

5.45. Marine Fin Fish, Mollusks and Crustaceans.

Marine fin fish, mollusks and crustaceans taken in lagoons and tidal waters are subject to the bag and possession limits established for the Ocean and San Francisco Bay District (beginning with Section 27.00). See the Ocean Sport Fishing Regulations booklet.

5.50. Mountain Whitefish.

(a) Open season: No mountain Whitefish may be taken in any water except when trout may be taken in such water.

(b) Limit: Five.

5.51. Northern Pike.

humilis*)

(c) Open season: All year.

(d) Hours: Reptiles may be taken at any time
of day or night.

(e) Methods of take:

(1) Reptiles may be taken only by hand,
except as provided in subsections (d)(2) and
(3) below, or by the following hand-operated
devices:

(A) Lizard nooses.

(B) Snake tongs.

(C) Snake hooks.

(2) Rattlesnakes may be taken by any
method.

(3) Turtles may be taken by hook and line.
Fishing methods described in Section 2.00
apply to the take of spiny softshell turtles,
slider turtles and painted turtles.

(4) It is unlawful to use any method or means
of collecting that involves breaking apart of
rocks, granite flakes, logs or other shelters in
or under which reptiles may be found.

5.65. Shad, American.

(a) Open season: All year, except for closures listed under special regulations.

(b) Limit: Twenty-five.

(c) Methods of take: Shad may be taken only by angling, except that a dip net may be used in the Valley District.

5.75. Striped Bass.

(a) Open season: All year except for closures listed in special regulations.

(b) Limit: Two, except in waters listed in (d) below.

(c) Minimum size: 18 inches total length except in waters listed in (d) below.

(d) Exceptions:

(1) In the Colorado River District, the Southern District (except Lake Elsinore, and New Hogan, San Antonio and Santa Margarita lakes

(A) Limit: Ten.

(B) Minimum size: No size limit.

(2) Lake Elsinore has the limit and minimum size shown in (b) and (c) above.

(e) For the purpose of these regulations, any striped bass hybrid with white bass is considered to be striped bass.

5.79. White Sturgeon Report Card and Tagging Requirements for Inland Waters (FG 683. See Section 701).

(a) Sturgeon Fishing Report Card Required. All anglers must have a Sturgeon Fishing Report Card in their possession while fishing for or taking sturgeon. Anglers must complete and return the card pursuant to regulations in this Section and in Section 1.74.

(b) Tagging and Recording Requirements for Retained Fish. A Sturgeon Fishing Report Card includes detachable tags that shall be used to tag any white sturgeon that is taken and retained in the sport fishery. Any white sturgeon possessed by any person shall be tagged.

(1) Upon taking and retaining a white sturgeon, the cardholder shall immediately record the following information:

(A) The month, day, fishing location and length of the fish shall be recorded in the appropriate spaces on the tag. Tags shall be used in sequential order.

(B) The month, day, fishing location and length of the fish shall be recorded in the appropriate spaces on the Sturgeon Fishing Report Card which corresponds to the number on the tag.

(2) Immediately after recording the information above, the cardholder shall remove and completely detach the tag from the card and affix it to the white sturgeon. Cardholders shall not wait until completion

of fishing activity to tag any white sturgeon in possession.

(3) The tag shall be securely fastened to the fish. To affix the tag, a "zip tie", string, line or other suitable material shall be passed through the tag at the location specified on the sturgeon tag and attached to the fish.

(4) Tags shall not be removed from the report card until immediately prior to affixing to a white sturgeon. Any tags detached from the report card and not affixed to a white sturgeon shall be considered used and therefore invalid. No person shall possess any used or otherwise invalid sturgeon tags.

(5) Records of Prior Activity. All tags must be accounted for at all times by entry of a record on the Sturgeon Fishing Report Card corresponding to all tags that are not in possession. Any tag that was lost or destroyed shall be recorded as such on the corresponding line on the Sturgeon Fishing Report Card.

(c) Reporting Requirements for Released Fish.

(1) Whenever the cardholder catches and releases a sturgeon, the cardholder shall immediately record the month, day, location code, and species of sturgeon.

(2) If all lines in the "sturgeon released" field of the report card are filled, any additional sturgeon caught and released need not be recorded on the card.

(d) Sturgeon tags must be left affixed to the fish in place, including while stored at a residence or non-transient location, until the fish is processed for immediate consumption.

(e) The annual fee for the Sturgeon Fishing Report Card is specified in Section 701, Title 14, CCR.

5.80. White Sturgeon.

(a) Open season: All year, except for closures listed under special regulations.

(b) Daily and annual bag limit: One fish per day. Three fish per year statewide.

(c) Size limit: No fish less than 46 inches total length or greater than 66 inches total length may be taken or possessed.

(d) Methods of take: The sturgeon must voluntarily take the bait or lure in its mouth. No sturgeon may be taken by trolling, snagging or by the use of firearms. Sturgeon may not be gaffed, nor shall any person use any type of firearm to assist in landing or killing any sturgeon.

(e) Report card required: Any person fishing for or taking sturgeon shall have in their possession a nontransferable Sturgeon Fishing Report Card issued by the department and shall adhere to all reporting and tagging requirements for sturgeon defined in Sections 1.74 and 5.79, Title 14, CCR.

(f) Special North Coast District Sturgeon Closure (Humboldt, Del Norte, Trinity and Siskiyou cos.). It is unlawful to take any sturgeon in the North Coast District at any time.

(g) For regulations on take and possession of sturgeon in ocean waters as defined in Section 27.00, see Sections 27.90, 27.91, and 27.95.

5.81. Green Sturgeon.

(a) Green sturgeon may not be taken or possessed.

(b) Green sturgeon taken and released incidentally to white sturgeon fishing shall be reported on a Sturgeon Fishing Report Card issued by the department, in accordance with procedures defined in Sections 1.74 and 5.79, Title 14, CCR.

5.82. Sunfish and Tilapia.

(a) Open season: All year, except for closures listed under district or special regulations.

(b) Limit: No limit except as follows:

(1) Barrett and Upper Otay Lakes (San Diego County): zero bag limit for all species.

(2) Eastman Lake (Madera Co.): No more than 25 crappie and sunfish of all species combined.

(NOTE: See Section 5.00 for black bass regulations and Section 2.08 regarding special restrictions for Barrett and Upper Otay lakes)

5.85. Trout and Salmon.

See Chapter 3, District Trout, Salmon and Special Regulations.

5.86. Hoopa and Yurok Indian Salmon Possession Limit.

It is unlawful for any person to possess more than one daily bag or possession limit of fish except as follows: Eligible Hoopa Valley and Yurok Reservation Indians, as defined in Chapter 1, Part 250, Title 25, CFR-Indian Fishing, Hoopa Valley Reservation and Yurok Reservation-Department of the Interior; may possess more than two salmon outside boundaries of the Hoopa Valley Reservation, provided:

(a) Such eligible Indians possess and display upon demand by any officer authorized to enforce this section their Indian Fishers identification card.

(b) All fish are possessed for subsistence or ceremonial purposes and are clearly marked by removing the dorsal fin prior to transporting them from the reservation.

It shall be unlawful to sell or possess for sale any salmon marked pursuant to this section.

5.87. Klamath-Trinity Salmon Report Card Requirement (FG 684, See Section 701).

(a) Report Card Required in Waters of the Klamath-Trinity River System. All anglers must have a Klamath-Trinity Salmon Report Card in their possession while fishing for or taking salmon in waters of the Klamath-Trinity River System, and must complete and return the card pursuant to regulations in this Section and in Section 1.74.

(b) Prior to beginning fishing activity, the cardholder shall record the month, day, and fishing location on the first available line on the report card.

(c) Whenever the cardholder lands (either retains or releases) a Chinook salmon, the angler shall immediately record whether the fish was an adult or a jack, and whether the fish has an adipose fin present. Whenever the cardholder releases a Coho salmon, the angler shall immediately record whether the maxillary is present or absent.

(d) Whenever the cardholder moves to another fishing location, the angler shall record the month, day, and location on the next line on the report card.

(e) In the Klamath-Trinity River System, a jack Chinook salmon is defined as any Chinook salmon that is less than 22 inches total length.

(f) In the event an angler fills in all lines and returns a Klamath-Trinity Salmon Report Card, an additional card may be purchased. See Section 1.74.

(g) The annual fee for the Klamath-Trinity Salmon Report Card is specified in Section 701, Title 14, CCR.

5.88. Steelhead Report and Restoration Card Requirements for Inland Waters (FG 682, See Section 701).

(a) Steelhead Fishing Report and Restoration Card Required. All anglers must have a Steelhead Fishing Report and Restoration Card in their possession while fishing for or taking steelhead in anadromous waters, as defined in Section 1.04. Anglers must complete and return the card pursuant to regulations in this Section and in Section 1.74. For purposes of these regulations, a steelhead trout is defined as any rainbow trout greater than 16 inches in length found in anadromous waters.

(b) Prior to beginning fishing activity, the cardholder must record the month, day, and location code on the first available line on the report card.

(c) When a steelhead is retained, the cardholder must immediately fill in a circle indicating whether the fish is a wild fish or a hatchery fish.

(d) When the cardholder moves to another location code, or finishes fishing for the day, the angler must immediately record on the card the number of wild and hatchery fish that were released from that location.

(e) In the event an angler fills in all lines and returns a Steelhead Fishing Report and Restoration Card, an additional card may be purchased. See Section 1.74.

(f) The annual fee for the Steelhead Fishing Report and Restoration Card is specified in Section 7380 of the Fish and Game Code.

5.90. White Bass.

(a) Open season: All year.

(b) Limit: No limit. No live white bass may be possessed or transported. Any white bass taken must immediately be killed by removing the head or cutting through the gills, except at Lake Nacimiento (San Luis Obispo County) where any white bass taken must immediately be released into the water or killed by removing the head or cutting through the gills.

5.93. Fully Protected Fishes.

None of the following fishes may be taken or possessed at any time: Colorado pikeminnow, Mohave chub, Lost River sucker, Modoc sucker, shortnose sucker, humpback sucker, Owens pupfish, unarmored threespine stickleback, rough sculpin, bonytail, Owens tui chub, Cottonball Marsh pupfish and desert pupfish.

5.95. Other Species.

Other species of fish may be taken in any number and at any time of the year by angling, except for closures and restrictions listed under district special regulations.

How to Release Fish

Follow these five points to release fish unharmed:

- Land your fish as carefully and quickly as possible.
- Try to avoid removing the fish from the water. Underwater unhooking and release is preferred.
- Do not squeeze the fish, or touch its eyes or gills.
- Remove only those hooks that you can see and remove easily, otherwise clip the line near the mouth on deep hooked fish.
- Use artificial lures (no bait) to minimize deep hooking. Barbless hooks or hooks with flattened barbs make unhooking easier and less stressful on the fish.

CHAPTER 3. TROUT, SALMON AND SPECIAL REGULATIONS

How to use the Trout and Salmon Section of this Booklet

1. First, refer to the Alphabetical List of Waters with Special Fishing Regulations (pages 29-58). If you find the water of interest to you in this list, you need not go any further. However, if the water is NOT listed, the General District Regulations apply.
2. To determine the District that you will be fishing in, you should verify the District using the definitions on pages 24-25 and the colored illustration at the end of the book.
3. Find the appropriate regulation in the District General Regulations on pages 26-28.

ARTICLE 1. DISTRICT DEFINITIONS

6.31. North Coast District Definition.

The North Coast District consists of the inland waters of all of Trinity, Humboldt and Del Norte counties and the portion of Siskiyou County northwest of a line drawn between Mt. Eddy and the Black Butte Summit railroad crossing of Interstate 5 and west of Interstate 5 between the railroad crossing and Weed, and west of Highway 97 between Weed and the Oregon border.

6.32. North Central District Definition.

The North Central District consists of the inland waters of all of Marin, Napa, Sonoma, Lake and Mendocino counties.

6.33. South Central District Definition.

The South Central District consists of the inland waters of all of Monterey, San Benito, San Francisco, San Luis Obispo, San Mateo, Santa Clara and Santa Cruz counties; all of Alameda County west of Interstate 680, and that portion of Alameda County which is both east of Interstate 680 and south of Interstate 580; all of Contra Costa County west of Interstate 80, and that portion of Contra Costa County which is both south of Highway 4 and west of Interstate 680.

6.34. Southern District Definition.

The Southern District consists of the inland waters of all of Los Angeles, Orange, San Diego, Santa Barbara and Ventura counties and those portions of Riverside and San Bernardino counties outside of the Colorado River District (see section 6.37).

6.35. Sierra District Definition.

The Sierra District consists of all of Modoc, Lassen, Shasta, Sierra, Plumas, Alpine, Inyo and Mono counties; Tulare County east of the west boundaries of Sequoia National Forest and Sequoia National Park; Fresno County east of the west boundaries of Sierra and Sequoia National Forests (excluding Pine Flat Lake); Madera County east of the west boundary of Sierra National Forest; Mariposa, Tuolumne, Calaveras, Amador, El Dorado, Placer and Nevada counties east of Highway 49 (excluding Don Pedro, McClure and New Melones lakes); the portion of Siskiyou County southeast of a line drawn between Mt. Eddy and the Black Butte summit railroad crossing of Interstate 5 and east of Interstate 5 between the railroad crossing and Weed and east of Highway 97 between Weed and the Oregon border; and Tehama County excluding Black Butte Lake. Those waters excluded above are part of the Valley District (see section 6.36).

6.36. Valley District Definition.

The Valley District consists of all of Butte, Colusa, Glenn, Kern, Kings, Merced, Sacramento, San Joaquin, Solano, Stanislaus, Sutter, Yolo and Yuba counties; Tulare County west of the west boundaries of Sequoia National Forest and Sequoia National Park; Fresno County west of the west boundaries of Sierra and Sequoia National Forests (including all of Pine Flat Lake); Madera County west of the west boundary of the Sierra National Forest; Amador, Calaveras, El Dorado, Mariposa, Nevada, Placer and Tuolumne counties west of Highway 49 (including all of Don Pedro, McClure and New Melones lakes); that portion of Alameda County which is both east of Interstate 680 and north of Interstate 580; and all of Contra Costa County east of Interstate 680 and that portion of Contra Costa County which is both north of Highway 4 and east of Interstate 80; and all of Black Butte Lake.

6.37. Colorado River District Definition.

The Colorado River District consists of Imperial County and those portions of Riverside and San Bernardino counties lying south and east of the following line: Starting at the intersection of Highway 86 with the north boundary of Imperial County; north along Highway 86 to its intersection with Interstate 10; east along Interstate 10 to its intersection with Cottonwood Springs Road; north along Cottonwood Springs Road and the Mecca Dale Road to Amboy; east along old Highway 66 to its intersection with Interstate 40; east along Interstate 40 to its intersection with Highway 95; and north along Highway 95 to the California-Nevada boundary. All of the Coachella Canal and Lake Cahuilla are included in this District.

Steelhead Anglers!

All wild steelhead caught must be released unharmed except in the Smith River (see Section 7.50(180)). Wild steelhead are identified by having an intact adipose fin.

Hatchery steelhead may be kept in selected waters. Hatchery steelhead are identified by a missing adipose fin and a healed scar in the location of the missing fin.

Hatchery steelhead
missing adipose fin with
healed scar.

Wild steelhead
intact adipose fin.

Steelhead Fishing Report and Restoration Card

Anglers must have a nontransferable Steelhead Trout Catch Report Restoration Card issued by the department in their possession while fishing for steelhead trout in anadromous waters. For purposes of this regulation, a steelhead trout is defined as any rainbow trout greater than 16 inches in length found in anadromous waters. Anglers must record, with a ball point pen, the month, day, location fished, number of steelhead caught and kept, and number of steelhead caught and released. Month, day and location must be recorded **EVEN IF NO STEELHEAD WERE CAUGHT**.

A report-restoration card shall be valid for the calendar year. When the card is completely filled-in, a person may purchase another card. Anglers are required by law to return Steelhead Fishing Report and Restoration cards to the Department of Fish and Game by January 31 of the year following the card expiration. Example: 2007 cards are to be returned by January 31, 2008.

CATCH AND RELEASE ZERO LIMIT WATERS

IN WATERS WHERE THE BAG LIMIT FOR TROUT OR SALMON IS ZERO, FISH FOR WHICH THE BAG LIMIT IS ZERO MUST BE RELEASED UNHARMED, AND SHOULD NOT BE REMOVED FROM THE WATER.

ARTICLE 2. DISTRICT GENERAL REGULATIONS

7.00. District General Regulations.

Unless otherwise provided, waters shown as open to trout and salmon fishing in subsections (a) through (g) below, are open to fishing for other species. Every body of water listed in subsections (a) through (g) of Section 7.00 (below) is closed to all fishing, except during the open season as shown. Unless otherwise provided, waters closed to trout and salmon fishing are closed to fishing for all other species, except that these closures do not apply to fishing for amphibians (see Section 5.05), freshwater clams (see Section 5.20), crayfish (see Section 5.35), and lamprey (see Section 5.40), using fishing methods other than hook-and-line fishing. Daily bag and possession limits, unless otherwise provided, mean the total number of trout and salmon in combination. Unless otherwise provided, no more than one daily bag limit may be possessed. Silver (coho) salmon may not be taken in any of the waters of the State, except in Lake Oroville. Incidentally hooked silver (coho) salmon, except in Lake Oroville, must be immediately released unharmed to the waters where they are hooked. In waters where the bag limit for trout or salmon is zero, fish for which the bag limit is zero must be released unharmed, and should not be removed from the water.

ANGLING REGULATIONS IN NATIONAL PARKS

ANGLING REGULATIONS IN NATIONAL PARKS MAY BE MORE RESTRICTIVE THAN STATE REGULATIONS. ANGLERS SHOULD CHECK WITH THE NATIONAL PARK SERVICE TO DETERMINE IF SEASONS OR BAG LIMITS DIFFER FROM STATE REGULATIONS.

COHO ALERT

SILVER (COHO) SALMON MAY NOT BE TAKEN IN ANY OF THE WATERS OF THE STATE, EXCEPT IN LAKE OROVILLE. INCIDENTALLY HOOKED SILVER (COHO) SALMON, EXCEPT THOSE IN LAKE OROVILLE, MUST BE IMMEDIATELY RELEASED UNHARMED TO THE WATERS WHERE THEY ARE HOOKED.

ARTICLE 3. ALPHABETICAL LIST OF WATERS WITH SPECIAL FISHING REGULATIONS

7.50. Alphabetical List of Waters with Special Fishing Regulations.

(a) General Provisions:

(1) Unless otherwise provided, waters shown as open to trout and salmon fishing below, are open to fishing for other species. Every body of water listed below is closed to all fishing except during the open season as shown.

(2) Unless otherwise provided, waters closed to trout and salmon fishing are closed to fishing for all other species, except that these closures do not apply to fishing for amphibians (see Section 5.05), freshwater clams (see Section 5.20), crayfish (see Section 5.35), and lamprey (see Section 5.40), using fishing methods other than hook-and-line fishing.

(3) Daily bag and possession limits, unless otherwise noted, mean the total number of salmon or trout in combination.

(4) Unless otherwise provided, it is unlawful to possess more than one daily bag limit.

(5) The following special regulations deal primarily with seasons, size limits, and bag and possession limits. Please be aware that these waters may also be subject to restrictions on fishing methods and gear (sections 2.00 through 2.40), fishing hours (section 3.00), and the use of bait (sections 4.00 through 4.30).

ARTICLE 4. SUPPLEMENTAL REGULATIONS

8.00 . Low-Flow Restrictions.

(a) Eel River, Mad River, Mattole River, Redwood Creek, Smith River and Van Duzen River. Stream closures: Special Low Flow Conditions.

From October 1 through January 31, any of the stream reaches listed in subsection (1) through (7) below shall be closed to all angling on Tuesday and Wednesday when the department determines that the flow on the previous Monday at any of the designated gauging stations is less than the minimum flows set forth in subsections (1) through (7); any of the stream reaches listed in subsections (1) through (7) below shall be closed to all angling on Thursday and Friday when the department determines that the flow on the previous Wednesday at any of the designated gauging stations is less than the minimum flows set forth in subsections (1) through (7); any of the stream reaches listed in subsections (1) through (7) below shall be closed to all angling from Saturday through Monday when the department determines that the flow on the previous Friday at any of the designated gauging stations is less than the minimum flows set forth in subsections (1) through (7). Notwithstanding this provision, the department may close or keep a stream reach closed to fishing when the minimum flow is exceeded on the scheduled flow determination day if the department is reasonably assured that the stream flow is likely to decrease below the minimum flow as specified in subsections (a)(1)-(7) of Section 8.00 before the next flow-determination date. In addition, the department may reopen a stream at any time during a closed period if the minimum flow as specified in subsections (a)(1)-(7) of Section 8.00 is exceeded and the department is reasonably assured that it will remain above the minimum flow until the next scheduled Monday, Wednesday, or Friday flow determination. The department shall make information available to the public by a telephone recorded message updated, as necessary, no later than 1:00 p.m. each Monday, Wednesday, and Friday as to whether any stream will be open or closed to fishing. It shall be the responsibility of the angler to use the telephone number designated in the sport fishing regulations booklet to obtain information on the status of any stream.

(1) The main stem Eel River from the paved junction of Fulmor Road with the Eel River to the South Fork Eel River.

Minimum Flow: 350 cfs at the gauging station near Scotia.

(2) The South Fork of the Eel River downstream from Rattlesnake Creek and the Middle Fork Eel River downstream from the Black Butte River.

Minimum Flow: 340 cfs at the gauging station at Miranda.

(3) Van Duzen River: The main stem Van Duzen River from its junction with the Eel River to the Highway 36 bridge near Bridgeville.

Minimum Flow: 150 cfs at the gauging station near Grizzly Creek Redwoods State Park.

(4) Mad River: The main stem Mad River from the Hammond Trail Railroad Trestle to Cowan Creek.

Minimum Flow: 200 cfs at the gauging station at the Highway 299 bridge.

(5) Mattole River: The main stem of the Mattole River from the mouth to Honeydew Creek.

Minimum Flow: 320 cfs at the gauging station at Petrolia.

(6) Redwood Creek: The main stem of Redwood Creek from the mouth to its confluence with Bond Creek.

Minimum Flow: 300 cfs at the gauging station near the Highway 101 bridge.

(7) Smith River: The main stem Smith River from the mouth of Rowdy Creek, to its confluence with Patrick Creek; the South Fork Smith River from the mouth to its confluence with Jones Creek; and the North Fork Smith River from the mouth to its confluence with Stony Creek.

Minimum Flow: 400 cfs at the Jedediah Smith Redwoods State Park gauging station.

THE NUMBER TO CALL FOR INFORMATION IS (707) 442-4502.

(b) Central Coast Streams - Stream Closures: Special Low Flow Conditions.

From October 1 through April 1, any of the stream reaches listed in subsections (1) and (2) below shall be closed to all angling for a period of one week, commencing on any Thursday, when the Department determines that the flow on the previous Wednesday morning at the designated gauging station is less than

the minimum flows set forth in subsections (1) and (2). Notwithstanding this provision, the Department may immediately reopen the streams to fishing if it determines that such flows exceed the minimum flows set forth in subsections (1) and (2) and no negative impact to the resource would result. The Department shall make information available to the public by telephone recorded message, updated no later than 1:00 p.m. each Wednesday, as to whether any stream will be open or closed to fishing. It shall be the responsibility of the angler to use the telephone number designated in the sport fishing regulations booklet to obtain information on the status of any stream.

THE NUMBER TO CALL FOR INFORMATION IS (707) 944-5533.

(1) **The Sonoma Creek** (Sonoma County), and all streams tributary to the Pacific Ocean (and its bays) in Mendocino, Sonoma, and Marin counties, except for the Russian River.

Minimum Flow: 500 cfs at the gauging station on the main stem Russian River near Guerneville (Sonoma County).

(2) **The Napa River** (Napa County) between Trancas Avenue in Napa and Oakville Cross Bridge near Yountville.

Minimum Flow: 15 cfs at the gauging station at the Oak Knoll Bridge on the main stem Napa River.

(c) South Central Coast Streams - Special Low Flow Closures:

During December 1 through March 7 the following streams (subsections (1) through (7)) will be closed to fishing when the Department determines that stream flows are inadequate to provide fish passage for migrating steelhead trout and salmon. Closed streams will be reopened when the Department determines flows are adequate for fish passage.

(1) Upper Penitencia Ck. (Santa Clara Co.) and Lower Coyote Ck. below its confluence with Upper Penitencia Ck.

(2) Pescadero Creek and all anadromous reaches of San Mateo Co. coastal streams normally open for fishing, from Elliot Ck. through Milagro Ck.

(3) The San Lorenzo River and all its tributaries, as well as all anadromous reaches of coastal streams normally open for fishing in Santa Cruz Co. from the San Lorenzo River north to and including Waddell Ck.

(4) Aptos and Soquel Creeks (Santa Cruz Co.).

(5) The Pajaro River and Uvas, Llagas, and Corralitos Creeks, (Santa Cruz, Monterey, & Santa Clara Co.).

(6) The main stem of the Salinas River (Monterey Co.), below its confluence with the Arroyo Seco River.

(7) The Arroyo Seco River (Monterey Co.).

(8) The Carmel River main stem, and the waters of San Jose, Gibson, Malpaso and Soberanes creeks that are West of Highway 1 (Monterey Co.), shall be closed to all fishing when the department determines that the flow at the U. S. G. S. gauging station near Carmel is less than 80 cfs.

(9) The Big Sur River main stem west of the Highway 1 bridge, all of Limekiln Creek and its tributaries, and the anadromous portions of all other Big Sur Coast streams west of Highway 1 in Monterey Co., from Granite Creek south to and including Salmon Creek.

The stream flow gauges referred to above in subsections (8) and (9) will be checked on Tuesday and Friday of each week. The decision as to whether these rivers will be open or closed to fishing will take place only on Tuesday and Friday of each week. In the event that river flow differs later in the week, the fishing status for each specific river will not change until the day following the next scheduled reading. It shall be the responsibility of the angler to use the telephone number designated in the sport fishing regulations booklet to obtain information on the status of any of the rivers or creeks listed above in subsections (1) through (9).

THE NUMBER TO CALL FOR INFORMATION IS (831) 649-2886.

8.10. Youth Fishing Derby, Susan River (Lassen County).

The Susan River, from the second railroad tunnel (the westernmost) on the Biz Johnson Trail downstream to the Riverside bridge in the City of Susanville, is open to fishing on the Saturday preceding the last Saturday in April, only to persons under 16 years of age who are registered for the fishing Derby sponsored by the Lassen County Sportsmen's Club.

PUBLIC HEALTH ADVISORY ON FISH CONSUMPTION

FISH ARE NUTRITIOUS AND GOOD FOR YOU TO EAT.

Fish are an excellent source of protein and beneficial fats, and are recommended as part of a healthy, balanced diet. The American Heart Association recommends healthy adults eat at least eight ounces (or two 4-ounce portions, prior to cooking) of fish a week. It is important, however, to choose your fish wisely.

The information presented here is from the Office of Environmental Health Hazard Assessment (OEHHA). OEHHA recommends that you choose fish to eat that are low in mercury and other contaminants. The following "safe eating guidelines" are provided to show which fish species have high levels of mercury or other chemicals and whose consumption should be restricted or avoided altogether, as well as fish that are low in contaminants and may be consumed frequently as part of a healthy diet.

For more information on advisories and the health effects of chemical contaminants in fish, and to stay current on updates, please check the OEHHA Web site at www.oehha.ca.gov (click on "Fish") or contact the Pesticide and Environmental Toxicology Branch (PETB) of OEHHA in Sacramento (P.O. Box 4010, Sacramento, CA 95812-4010, Phone 916/327-7319 or FAX 916/327-7320) or Oakland (1515 Clay Street, 16th Floor, Oakland, CA 94612, Phone 510/622-3170 or FAX 510/622-3218).

General Advice

You can reduce your exposure to chemical contaminants in sport fish by following the recommendations below. Follow as many of them as you can to increase your health protection. This general advice is not meant to take the place of advisories for specific areas, which follow later in this booklet, but should be followed in addition to them. Sport fish in many water bodies in the state have not been evaluated for their safety for human consumption. This is why we recommend following the general advice given below.

Fishing Practices

Chemical levels can vary from place to place. Your overall exposure to chemicals is likely to be lower if you eat fish from a variety of places rather than from one usual spot that might have high contamination levels.

Be aware that OEHHA may issue new advisories or revise existing ones. Consult the Department of Fish and Game regulations booklet or check with OEHHA on a regular basis to see if there are any changes that could affect you.

Consumption Guidelines

Fish Species: Some fish species have higher chemical levels than others in the same location. If possible, eat smaller amounts of several different types of fish rather than a large amount of one type that may be high in contaminants.

Fish Size: Smaller fish of a species will usually have lower chemical levels than larger fish in the same location because some of the chemicals may accumulate as the fish grows. It is advisable to eat smaller fish (of legal size).

Fish Preparation and Consumption

- Eat only the fillet portions. Do not eat the guts and liver because chemicals usually concentrate in those parts. Also, avoid frequent consumption of any reproductive parts such as eggs or roe.
- Many chemicals are stored in the fat. To reduce the levels of these chemicals, skin the fish when possible and trim any visible fat. This method can significantly reduce chemicals stored in fat, such as PCBs and some pesticides, if they are present, but trimming fat will not reduce mercury content.
- Use a cooking method such as baking, broiling, grilling, or steaming that allows the juices to drain away from the fish. The juices will contain chemicals in the fat and should be thrown away. Preparing and cooking fish in this way can remove 30 to 50 percent of the chemicals stored in fat. If you make stews or chowders, use fillet parts.
- Raw fish may be infested with parasites. Cook fish thoroughly to destroy the parasites.

Advice for Pregnant Women, Women of Childbearing Age, and Children

Children and fetuses are more sensitive to the toxic effects of methylmercury, the form of mercury of health concern in fish. For this reason, OEHHA's advisories that are based on mercury provide special advice for women of childbearing age and children. Women should follow this advice throughout their childbearing years.

The U.S. Food and Drug Administration (FDA) and the U.S. Environmental Protection Agency (EPA) issued a joint Federal Advisory for Mercury in Fish, which advises women who are pregnant or might become pregnant, nursing mothers, and young children not to eat shark, swordfish, king mackerel, or tilefish. The Federal advisory also recommends that this population eat up to 12 ounces (2 average meals) each week of a variety of fish purchased in stores or restaurants. For local water bodies, check local advisories. If no advice is available, eat up to 8 ounces of fish (6 ounces after cooking) per week of fish you catch from local waters, but don't consume any other fish during that week.

The Federal advisory can be found at www.epa.gov/waterscience/fishadvice/advice.html.

PUBLIC HEALTH ADVISORY ON FISH CONSUMPTION

Adjusting Fish Meal Size for Body Weight

MEAL SIZE DEPENDS ON BODY WEIGHT. Meals are based on a 160-pound adult eating 8 ounces of fish before cooking (6 ounces cooked) — about the size of two decks of cards. You could eat two 4-ounce fish meals in place of one 8-ounce meal. If you weigh less than 160 pounds, eat smaller portions of fish. Serve smaller meals to children – about half as much as adults for children 12 and under.

SAFE EATING GUIDELINES FOR SPECIFIC WATER BODIES

The following general guidelines apply to the specific advisories that follow:

- Eating sport fish in amounts slightly greater than what is recommended should not present a health hazard if only done occasionally, such as eating fish caught during an annual vacation.
- Nursing and pregnant women and children may be more sensitive to the harmful effects of some chemicals. Women of childbearing age and children should be particularly careful about following the advisories. OEHHA has expanded the advisories based on mercury to include all women of childbearing age and children age 17 years and younger.
- The consumption limits that follow for each species and area assume that no other contaminated fish are being eaten. If you eat several different listed species from the same area, or the same species from several areas, your total consumption still should not exceed the recommended amount. One simple approach is to use the lowest recommended amount as a guideline to consumption. For example, if you eat a fish from the one-meal-per-month category, do not eat another fish from that or any other water body for one month.
- Just because the area where you like to fish is not included in the specific advisory areas that follow does not necessarily mean that it is free from chemical contamination. Sport fish in many water bodies in the state have not yet been evaluated for their safety for human consumption. Follow the general advice given earlier to protect your health.
- The following safe eating guidelines are for freshwater (and estuaries) only. OEHHA's guidelines for marine waters can be found in the California Ocean Sport Fishing Regulations at www.fgc.ca.gov/html/regs.html.
- Because fish provide important nutrients that benefit your health if they are consumed regularly, OEHHA recommends that you avoid eating fish that can only be eaten once or twice a month; a better choice is to eat other less contaminated fish more often.

Lake Pillsbury (Lake County)

Because of elevated levels of mercury, women of childbearing age and children aged 17 years and younger should not eat fish from Lake Pillsbury. Women beyond their childbearing years and adult males may eat fish from Lake Pillsbury on an occasional, but not regular, basis.

San Francisco Bay and Delta Region

Because of elevated levels of mercury, PCBs, and other chemicals, the following interim advisory* has been issued.

- Women beyond their childbearing years and adult males should eat no more than two meals per month of San Francisco Bay sport fish, including sturgeon and striped bass caught in the delta. (One meal for a 160-pound adult is about eight ounces before cooking.)
- Women beyond their childbearing years and adult males should not eat any striped bass over 35 inches.
- Women of childbearing age and children should not eat more than one meal of fish per month. In addition, they should not eat any striped bass over 27 inches or any shark.
- This advisory does not apply to salmon, anchovies, herring, and smelt caught in the bay; other sport fish caught in the ocean; or commercial fish. For freshwater species caught in the delta, see the advisory below for the South Delta.
 - Richmond Harbor Channel area: In addition to the above advice, no one should eat any croakers, surfperches, bullheads, gobies or shellfish taken within the Richmond Harbor Channel area because of high levels of chemicals detected there.

South Delta, including the San Joaquin River from the Sacramento River to the Port of Stockton; and other rivers, sloughs, and flooded tracts in the Delta, south of Highway 12

Because of elevated mercury levels, follow the draft guidelines* in the table below.

FISH SPECIES	SERVINGS PER WEEK NOT Meals per month	
	Women of childbearing age and children 17 years and younger	Women beyond childbearing years and men
Bluegill or other sunfish OR	4 servings	Daily

PUBLIC HEALTH ADVISORY ON FISH CONSUMPTION

Asiatic clams OR Crayfish OR	4 servings	6 servings
Catfish OR	4 servings	4 servings
Crappie OR Carp OR	2 servings	6 servings
Sacramento sucker OR Largemouth, smallmouth or spotted bass	2 servings	4 servings
Follow the San Francisco Bay advisory for striped bass and sturgeon.		
Follow the "No consumption" warnings where signs are posted in the Port of Stockton.		
* A final state advisory is being developed. Follow this advice in the interim		

**** A serving size is 4 ounces of fish before cooking (3 ounces cooked) for adults. Serve about half as much to children 12 and under.**

NOTE: New guidelines for the "North Delta" (Sacramento River and other water bodies in the delta north of Highway 12) will be issued this year. Check OEHA's web site at www.oehha.ca.gov (click on "Fish") for the release of this new draft advisory.

San Joaquin River south of the Port of Stockton to Friant Dam

Because of elevated mercury levels, follow the draft guidelines* in the following table.

FISH SPECIES	SERVINGS PER WEEK NOT <i>Meals per month</i>	
	Women of childbearing age and children 17 years and younger	Women beyond childbearing years and men
Bluegill or other sunfish OR	4 servings	Daily
Crayfish OR	4 servings	6 servings
Crappie OR Carp OR	2 servings	6 servings
Catfish OR Sacramento sucker OR	2 servings	4 servings
Largemouth, smallmouth or spotted bass	Do Not Eat	2 servings

Follow the "No consumption" warnings where signs are posted in the Port of Stockton.

* A final state advisory is being developed. Follow this advice in the interim

**** A serving size is 4 ounces of fish before cooking (3 ounces cooked) for adults. Serve about half as much to children 12 and under.**

Guadalupe Reservoir, Calero Reservoir, Almaden Reservoir, Guadalupe River, Guadalupe Creek, Alamitos Creek, and the associated percolation ponds along the river and creeks (Santa Clara County)

Because of elevated mercury levels in fish, no one should consume any fish taken from these locations.

Grassland Area (Merced County)

Because of elevated selenium levels, no one should eat more than four ounces of fish from the Grassland area in any two-week period.

Lake Nacimiento* (San Luis Obispo County)

Because of elevated mercury levels, the County of San Luis Obispo recommends that children and women who are pregnant or may become pregnant avoid eating any fish from Lake Nacimiento. Men and women beyond childbearing age can safely eat one meal a week of the following fish from Lake Nacimiento: catfish, carp, crappie, or sunfish such as bluegill. No one should eat white bass, spotted bass, or largemouth bass from Lake Nacimiento.

Harbor Park Lake (Los Angeles County)

Because of elevated chlordane and DDT levels, no one should eat goldfish or carp from Harbor Park Lake.

Salton Sea (Imperial and Riverside Counties)

Because of elevated selenium levels, no one should eat more than four ounces of croaker, orangemouth corvina, sargo, and tilapia taken from the Salton Sea in any two-week period. An additional warning for the New River has been published and posted by the Imperial County Health Department for people to avoid physical contact with the waters of the New River and to avoid eating any fish of any variety taken from the river.

Please check OEHA's web site periodically for new "Safe Eating Guidelines" and other information: www.oehha.ca.gov (Click on "Fish").

TROPHY BLACK BASS CERTIFICATE PROGRAM

The Trophy Black Bass program was adopted by the Fish and Game Commission in February 1993 under the Black Bass Conservation and Management Act of 1980.

The purpose of the Program is to provide a reasonable opportunity for an angler to catch a trophy-sized black bass at designated waters. As part of the Trophy Black Bass program, the Department of Fish and Game maintains records of anglers who catch a trophy size bass and submit a recognition application form to the Department.

Verified catches are entered into Department databases and provide information on trophy fish catches to managers. Anglers will receive a frameable certificate documenting their catch and if the fish is released back to the water, an attractive California Trophy Black Bass Program Catch and Release hat/lapel pin.

Trophy Bass

In the Trophy Black Bass Program policy, trophy-sized black bass are recognized by the following minimum weight standards:

largemouth bass (*Micropterus salmoides*) 10 lb.

smallmouth bass (*Micropterus dolomieu*) 6 lb.

spotted bass (*Micropterus punctulatus*) 6 lb.

More information is located on the DFG web site at
<http://www.dfg.ca.gov/fish/Fishing/Recognition/TBB/index.asp#>

LARGEMOUTH BASS, *Micropterus salmoides*, were first introduced into California from Quincy, Illinois, into Lake Cuyamaca (San Diego County) in 1891, and are now found throughout California.

Two subspecies are recognized, the northern subspecies, *M. s. salmoides*, and the Florida subspecies, *M. s. floridanus*. The first introduction of Florida largemouth bass was made in 1959 into southern California.

The value of Florida largemouth bass has been demonstrated by increased catches of trophy-sized fish and nationwide public attention. Many bass greater than 10 pounds have been caught from California waters including a 22.01 pound bass caught and released by Robert Crupi from Castaic Lake, Los Angeles County, in 1991.

SPOTTED BASS, *Micropterus punctulatus*, are divided into three separate subspecies but only the northern spotted bass, *M. p. punctulatus*, called Kentucky bass, and Alabama spotted bass, *M. p. henshalli* have been introduced into California.

Although spotted bass are colored similar to largemouth bass, they can be easily distinguished by a smaller mouth and the fact that the first and second dorsal fins are connected. A tooth patch is located on the tongue of the spotted bass and can be felt when you run the tip of your finger over it. However, a portion of largemouth bass also possess the tooth patch. The Alabama spotted bass was introduced to the state in 1974. Subsequently, angler catches of Alabama spotted bass over six pounds from many waters have been verified by Department biologists including the state and world record that weighed 10 pounds 4 ounces, caught at Pine Flat Reservoir in 2001.

SMALLMOUTH BASS, *Micropterus dolomieu*, were first introduced into California in the Napa River in 1874 from Lake Champlain, New York. Historical records indicate that anglers "fished out" the first plant and the introduction was considered unsuccessful.

An introduction a few years later into Crystal Springs Reservoir, a water supply reservoir south of the city of San Francisco, was successful and provided an abundant source of smallmouth bass for additional stockings throughout the state. Most trophy-sized smallmouth bass from California have been caught in northern California waters. The California state record smallmouth bass is 9 lbs 12 oz and was caught from Pardee Reservoir in 2007.

New Zealand Mudsnails

WHY CONTROL NEW ZEALAND MUDSNAILS?

NZMS disrupt the food chain by consuming algae in the stream and competing with native bottom-dwelling invertebrates. A population crash of invertebrates (small aquatic organisms) can follow the introduction of NZMS, which reduces fish forage. With a decrease in food availability, fish populations may decline as well. Learn more about New Zealand Mudsnails at www.esg.montana.edu/aim/mollusca/nzms/.

How to Identify a New Zealand Mudsnail

- New Zealand Mudsnails average $\frac{1}{8}$ inch long, but young may be as small as a grain of sand. A plate covers the opening of the gray, brown or black cone-shaped shell with 5-6 whorls.
- They live in most types of waters, from silted river bottoms to clear mountain streams and brackish waters.
- Temperature tolerance 32-77°F (66°F optimum).
- Reproduce asexually - only takes ONE.
- Densities of over 750,000 per square meter have been found in Yellowstone National Park waters.
- Adults can survive several days out of water on moist gear.

New Zealand Mudsnails

NEW ZEALAND MUDSNAIL ALERT

New Zealand Mudsnails (NZMS) were introduced to North America's Snake and Madison Rivers in the 1980s. This small invasive quickly moved to Yellowstone National Park and is now found in many waters across the West, including several streams in California. People usually spread NZMS attached to waders and fishing gear.

Prevent the spread of New Zealand Mudsnails:

If possible, have a separate set of waders or sampling gear for use in known infested streams.

Clean all gear before leaving a site (a stiff-bristled scrub brush or high-pressure water is the best tool for this task).

Inspect gear before it is packed for transport. Visible traces of sand, mud, gravel, and plant fragments are signs that gear has not been properly scrubbed and mudsnails may have been retained.

Proper freezing or drying techniques are practical and reliable methods to treat equipment:

- Freeze waders six to eight hours. It is best to leave them in the freezer overnight to ensure complete mortality. Freezer temperature should be 26° F or lower.
- Dry your gear before reuse. A drying time of at least 48 hours under low humidity is recommended to remove all pockets of dampness. Gear should be completely dry for a minimum of 24 hours.

Chemical soaking treatments using copper sulfate solutions can be effective when carefully applied. See the admin report on treating waders on DFG's website: <http://www.dfg.ca.gov/invasives/mudsnail/>

Many aquatic invasive species are spread by anglers and boaters. Live bait and packaging for live bait can spread other invaders. Invasive aquatic plants and animals hitchhike on boats, propellers, live wells, and fishing gear. Clean all boating equipment to prevent the introduction of non-native invasive species.

California Heritage Trout Challenge & Online Fishing Guide

California Heritage Trout Challenge

California has a large and diverse collection of trout that are native to the state's waters. The Legislature recognized the special value of the native trout by passage of the Native California Trout Act (Fish and Game Code Section 7260) that acknowledges the importance of designating Heritage Trout waters to provide angling for the following forms of California native trout. The three subspecies of cutthroat trout (*Oncorhynchus clarki*) and eight forms of rainbow trout (*Oncorhynchus mykiss*) are shown below:

Cutthroat Trout (*Oncorhynchus clarki*)

- Coastal cutthroat trout,
- Lahontan cutthroat trout
- Paiute cutthroat trout

Rainbow Trout (*Oncorhynchus mykiss*)

- Coastal rainbow trout
- Eagle Lake rainbow trout
- McCloud River redband trout
- Goose Lake redband trout
- Warner Valley redband trout
- Kern River rainbow trout
- California golden trout
- Little Kern golden trout

By catching six different forms of the above California native trout from their historic drainages and photographing these fish, you can receive a colorful, personalized certificate featuring the art of renowned fish illustrator Joseph Tomelleri. Your certificate will show six full-color images representing the trout you caught, along with their dates and locations. It is sized to fit in a standard 16 x 20 inch matted frame.

Online Fishing Guide

To help you plan your fishing day, the California Department of Fish and Game has developed the Online Fishing Guide. It allows you to see many of California's excellent fishing spots and learn about the services and facilities they have to offer.

The Fishing Guide contains locations which Fish and Game has determined will offer excellent opportunities for recreational fishing. These locations were derived in part from the Department's trout planting data, as well as from input by Department regional and headquarters staff. The fishing locations displayed in the Fishing Guide represent the more popular sites throughout the State.

DON'T MOVE A MUSSEL!

Quagga/zebra mussels ruin boats and destroy waters

Quagga/zebra mussels in California waters could result in an environmental and economic disaster. They can cause a shift in native species and disrupt the ecological balance of entire bodies of water. The mussels clog water pipes, coat piers, and ruin boat motors. Transferring a boat from an infested water to another water could spread the mussels.

YOU CAN STOP THEM!

When leaving the water:

- **Inspect all exposed surfaces - small mussels feel like sandpaper to the touch.**
- **Wash the hull of each watercraft thoroughly.**
- **Remove all plants and animal material.**
- **Drain all water and dry all areas.**
- **Drain and dry the lower outboard unit.**
- **Clean and dry all live-wells.**
- **Empty and dry any buckets.**
- **Dispose of all bait in the trash.**
- **Wait 5 days and keep watercraft dry between launches into different fresh waters.**
